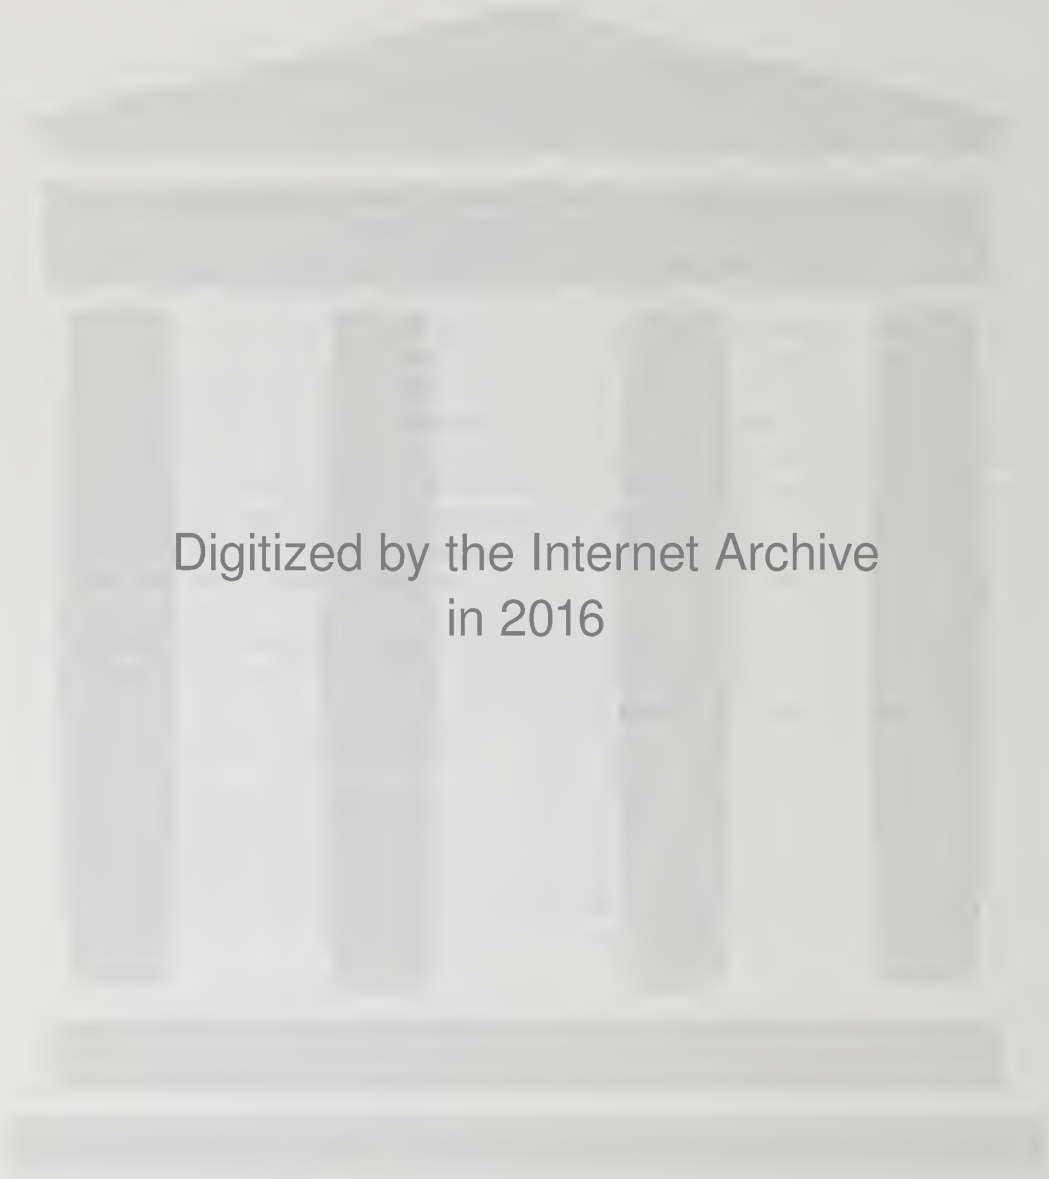
NOTES

1. The information published in this register is that contained in Bureau of Naval Personnel punched-card records. Errors or omissions should be reported by letter to the Chief of Naval Personnel (Attn: Pers-B82) by the Naval Reserve officer concerned.

2. Attention is invited to the fact that in all communications concerning officers, the file number is used, not the register number.



3. An asterisk (*) appearing at the left of the register number denotes the officer concerned has been appointed, or is eligible for appointment, to the next higher grade but has not, at the time of publication, 1 July 1955, accepted the appointment. The register number and date of rank reflect relative precedence in the higher grade in such instances; however, officers whose appointments to higher grade have terminated may be reappointed to the higher grade with appropriate later precedence and date of rank consistent with the delay in establishing professional qualification, as provided in BuPers Instruction 1412.9.

4. Register numbers of officers who are entitled to ranks indicated solely by virtue of Public Law 305, 79th Congress, commence with 900,000 in each grade of the line and staff corps. Dates of rank for these officers have not been established.

5. Register numbers of ensigns with dates of rank in calendar year 1955 are purposely omitted pending establishment of relative precedence. Register numbers are not assigned ensigns with designator 1995.

6. The date shown in column headed "Pay Entry Base Date" is the date which reflects all service for pay purposes.

7. Distribution of this publication is made to ships, aircraft squadrons, staffs, disbursing officers, and shore stations based on established needs. Requests for additional copies should be fully justified and should be submitted by requisition, signed by the commanding officer, on NAVEXOS form 158 to the appropriate District Publications and Printing Office.
